

Keep Me Home If...

Two or more times
in 24 hours.

Temperature of 100.5°F or
more (taken orally).

Three or more watery
or loose stools in 24
hours.

With fever or
swollen glands.

Thick mucus or pus
draining from the eye.

Rash with itching or fever.
Open sores, especially with
drainage. Lice or scabies.

Unusually tired, confused, cranky,
pale or notable loss of appetite.

When your child is sick:

1. Have plans for backup child care.
2. Tell your caregiver what is wrong with your child, even if they stay home.
3. Keep your child home for 24 hours after symptoms are gone.
